

## IISE webinars

Thank you for your interest in IISE's webinars. These free one-hour presentations by knowledgeable professionals and experienced volunteers provide deeper insight into topics and issues involving industrial engineers and industrial engineering-related disciplines.

IISE webinars are scheduled for 60 minutes; 45 minutes for the presentation and 10 - 15 minutes for attendees to ask questions. Webinar time slots are on Tuesday and Thursday from 2 – 3 p.m. Eastern Time. Typically, webinars are not scheduled during holidays and IISE conference times due to staff resources and previous attendance history.

IISE provides technical and moderator support for the webinars. For scheduling and marketing purposes, the following items are needs **ten weeks** prior to the webinar: title, brief description of presentation, and bio of speaker – a photograph is optional.

For questions regarding IISE webinars, webinar guidelines and to schedule webinars, please contact:
